### Revised Bibliography of the Lepidoptera of Turkey

Ahmet Ö Koçak<sup>1</sup> Muhabbet Kemal<sup>2</sup>

**Abstract:** Revised Bibliography of the Lepidoptera of Turkey. *Cent. ent. Stud., Priamus* (Supplement ) 22: 1-91.

In this bibliographical study, totally 2183 publications on the Lepidoptera of Turkey are listed as author index. The items are related with the results of the Cesa projects, previously published in various Cesa serials.

**Key words:** *Lepidoptera*, bibliography, Turkey.

During the taxonomical, nomenclatural, and eco-faunistical studies on the Lepidoptera of Turkey<sup>3</sup> and adjacent countries, the authors evaluated a large number of the related books and articles, published between the period of 1758 and 2011. Bibliographical studies have also been published by the authors separately. Detailed evaluations have been given in the last publication on this subject.<sup>4</sup>

In the present list, totally 2183 items are given according to the author names and date of the publications. These publications are usually taxonomical, faunistical and ecological ones.<sup>5</sup> The list has been extracted from our database system concerning the bibliography. Almost all of them are currently used in the Cesa publications. Publications of the authors are mostly placed in the “Internet Archive” and their pdf copies are freely obtainable.

## Priamus & Priamus Supplement

ISSN 1015-8243

**Priamus** is the first international serial publication of the Centre for Entomological Studies Ankara (CESA), established in 1981. It appears in volumes at irregular intervals. It includes shorter original articles of the research workers of the Centre, regarding taxonomy, nomenclature, morphology, bibliography, check-list, catalogue of Insects, especially Lepidoptera, as well as papers on faunistic, ecological and distributional researches. The publication languages are Turkish, English, German and Uighurian.

**Priamus Supplement** is the first international, online publication of the Centre for Entomological Studies Ankara (CESA), established in 2006 in accordance with the Publications Rules of the ICZN. It appears at irregular intervals as PDF format and announced in the internet site of the CESA. It includes larger original articles and theses of the research workers of the Centre, regarding morphology, bibliography, check-list, catalogue of Insects, especially Lepidoptera, as well as papers on faunistic, ecological and distributional researches (except nomenclatural studies). The publication languages are Turkish, English, German and Uighurian.
